Preston County Schools Announces: More Options to Public School

High School students in grades 9-12 are offered the choice of an online education through a public virtual school program.

Completion of the program, satisfying public school graduation requirements, gives students the opportunity to walk across the stage and earn a Preston High School diploma.

Students enrolled as a full-time student in the virtual program are eligible to participate in co-curricular and extra- curricular activities at Preston High School.

Student supports include face-to-face tutoring at the local school. IEP committees will meet to determine the most appropriate least restrictive environment and the most reasonable accommodations for students who have an IEP or 504.

Current homeschool and nonpublic school students who enroll in virtual courses are subject to the same registration, attendance and policies as public school students.

Need More Information?

Attend an informational meeting held at the Board of Education Room located in the County Office Building behind the high school on August 7, 2018 at 10:00 AM or view the meeting live on our website: prestoncountyschools.com. The meeting will be recorded and available for viewing on this site at your leisure.
